

## **Bob Dutton for U.S. Congress Candidate Statement Correction**

The San Bernardino Registrar of Voters would like to formally apologize to Bob Dutton, a candidate for the new 31<sup>st</sup> Congressional seat, for the typographical error that we caused in the candidate statement printed in the recent Voter Information Guide and Sample Ballot Candidate Statement that was mailed out to all registered voters in the county. Bob Dutton's corrected candidate statement should read as follows:

*Small businessman Bob Dutton believes greedy corporate interests and big labor union bosses have too much influence in Washington D.C. politics.*

*An independent conservative, Bob Dutton has lived in San Bernardino County for 37 years and he knows that families here are struggling to pay their bills, find work and prevent foreclosures on their homes. Bob Dutton's public service includes two terms on the Rancho Cucamonga City Council and ten years as our citizen representative in state government where he's greatly respected for his strong pro-jobs legislation. The National Federation of Independent Business and the California Chamber of Commerce each gave Bob Dutton a 100% perfect score for his dedicated fight to create more jobs in our state.*

*Supported by the Howard Jarvis Taxpayers Association for his strong anti-tax commitment, Bob Dutton is appalled that our national debt has risen an astounding 41% in just three years... that's one reason he supports a strict federal spending cap. Bob Dutton favors building the Keystone oil pipeline to reduce skyrocketing gasoline prices; opposes amnesty for illegal immigrants; backs a tough two-thirds vote requirement before Congress can hike taxes; and supports repealing Obamacare - the government-run health care program.*

*Happily married for thirty years to Andrea Guillen, a Chaffey Community College professor in Health Sciences, the Duttons reside in Rancho Cucamonga and they have one daughter, Kara.*
